Jonas Lindström

Junior Software Engineer (Frontend)

SUMMARY

Enthusiastic frontend developer with 2 years of experience building responsive web applications using modern JavaScript frameworks.

EXPERIENCE

Frontend Developer — NordiApps

2022–Present

- Developed React-based dashboard for internal analytics, adopted by 5 departments.
- Improved page load performance by 30% via code-splitting and lazy loading.

Intern (Frontend) — Spotify

2021–2022 (6 months)

- Contributed to the redesign of the artist profile page using TypeScript and Redux.
- Wrote unit tests with Jest, achieving 85% coverage on new features.

EDUCATION

BSc Computer Science

KTH Royal Institute of Technology · 2022
