SUMMARY

Mid-level software engineer with 4 years of experience building scalable backend services in Python and Go. Passionate about clean architecture, test-driven development, and mentoring junior developers.

EXPERIENCE

Software Engineer — NexaTech Solutions

Mar 2022 – Present

- Designed and implemented a micro-service handling 2 k RPS using Python FastAPI and PostgreSQL.
- Reduced average API latency by 35 % through profiling and async refactor.
- Led a bi-weekly code-review guild, improving team code coverage from 68 % to 90 %.

Junior Backend Developer — CloudForge GmbH

Jun 2020 – Feb 2022

- Developed RESTful endpoints for an internal CRM using Django REST Framework.
- Automated deployment pipelines with GitHub Actions, cutting release time from 2 h to 20 min.

EDUCATION

B.Sc. Computer Science

Technical University of Munich · 2020
