SUMMARY

Experienced backend engineer with 7+ years building scalable micro-services in Python and Go. Passionate about clean code, test-driven development, and mentoring junior talent.

EXPERIENCE

Senior Software Engineer — NebulaTech Solutions 2020-Present

- Led a team of 5 engineers to refactor legacy monolith into Kubernetes-based micro-services, cutting latency by 35%.
- Designed and maintained a high-throughput payment processing service handling >2M transactions/day.
- Introduced internal Python linting and CI pipelines, reducing bug escape rate by 40%.

Software Engineer — SkyLine Systems 2017-2020

- Developed RESTful APIs using Django and PostgreSQL for a B2B SaaS platform.
- Implemented automated test suite (pytest) achieving 92% code coverage.
- Collaborated with UX team to deliver feature flags via LaunchDarkly.

EDUCATION

M.Sc. Computer Science
Technical University of Munich · 2017
