

Jens van der Meer

Principal Software Engineer

jens.vandermeer@example.com · +31 6 555 7777 · Amsterdam, Netherlands

SUMMARY

Technical leader with 12+ years of experience architecting high-performance platforms and guiding engineering teams. Expert in distributed systems, cloud native technologies, and fostering a culture of innovation.

EXPERIENCE

Principal Software Engineer — Vertex Systems

2019 – Presente

- Architected event-driven platform processing 50M+ events daily with 99.99% uptime.
- Drove adoption of Rust for performance-critical services, cutting latency by 40%.
- Coached 4 senior engineers into staff-level roles.

Lead Software Engineer — CloudForge BV

2014 – 2019

- Migrated legacy monolith to Kubernetes-based micro-services, reducing ops cost by 30%.
- Introduced internal API marketplace increasing reuse across products.

Software Engineer — NetSoft Solutions

2010 – 2014

- Built real-time analytics dashboard used by sales team worldwide.
- Contributed to core networking library adopted across multiple products.

EDUCATION

M.Sc. Computer Science

Delft University of Technology · 2010

B.Sc. Informatics

University of Amsterdam · 2008

SKILLS

Go

Rust

Python

Kubernetes

Istio

AWS

GCP

CI/CD (GitLab, ArgoCD)

System Design

Mentoring
